

PHYSICAL MEASUREMENT CALIBRATION

Physical measurement at Cetim

Your expectations

You are looking for a service provider for the calibration of:

- pressure gauge (absolute and relative pressure mode) (accreditation COFRAC No. 2-1244 - Scope available on www.cofrac.fr)
- mass from 1g to 20kg (accreditation COFRAC No. 2-1182 - Scope available on www.cofrac.fr)
- thermometer and temperature sensor
- dynamometer and force sensor up to 100kN
- torque meter (accreditation COFRAC No. 2-6529 - Scope available on www.cofrac.fr)

Our solutions

Cetim laboratory offers you to calibrate your instruments:

- dial or digital pressure gauges and pressure sensors
- mass/weight standards
- thermometers and temperature sensors
- dynamometers and force sensors
- dynamometric devices and torque meters

Your benefits

Cetim is COFRAC-accredited and benefits from a recognized expertise in calibration and metrology as well as resources to ensure short-time answers
